and thinn and Scitzerfermed the potentials of the state o dead have longits. Artistic criticism finds sooms finit with the details of the status, and with a lack of abstract locarly which the circumstances of the subject crimds have tribable.

The experience is the circumstances of the subject crimds have the destinate of surviving tree coup for the destinate, developes connectators single factors regard to the cost of the surviving factors with vegetables and embouring, as most of that poil for twenty cents a plade at the restanciate of the cost of the surviving factors and pullows. In estimates based on this of returns the expense of feed, critic, cooks and these without any extra cost to itself by using the machinery of station bouses and pollomen; but something may be judged or the profits of largely pattername frequent from the figures.

Me. Patters T. Brazy, the distribution of the profits of largely pattername frequent from the figures.

Me. Patters T. Brazy, the distribution of the profits of largely pattername frequent from the figures.

Me. Patters T. Brazy, the distribution of the profits of largely pattername frequent from the figures.

Me. Patters T. Brazy, the distribution of the profits of largely pattername frequent from the figures.

Me. Patters T. Brazy, the distribution of the first time, is public, in flexion of the first time, is public, in flexion of the first time, is public, in flexion that the returns of Mr. Brazy will do a good deal toward relieving the mescalities of Mr. (tilts in his last days as the profit of the in the last days.

GRANT AND RECONSTRUCTION. A Glimpse at the Becord. A Glimpse at the Becord.

Some of Grant's Orders, Letters and Recommendations
Bearing on the Question of Reconstruction of Reconstruction.

Press Our Own Correspondent.

The printing of a goodly sized volume of military reports and correspondence, sent to the Blones by the President just before the holidays, brings to light certain facts rolative to General Grant, that are of much later set.

The reconstruction palley of Congress did not agains fully grown from the brain of any one mash, nor was it facilities to its present propertion by the labor of any one commitble subject is garnished with ount and quality of blackguar FROM BOSTON. the contract of the part of the contract of th R the parecurrent and content and in the Receilers's accession of independence is due, in some measure, to his recent experience in segarit in the nomination of Mr. Thomastic the Chief Justiceology. He party friends or de havoo, and is loose the sum of detrection against from at that time without resurces; and the orders shrough which he was forced to pass seems to have readyled him to padde his or a coince bearerorn, without longing the tribudy to a party which he was forced to pass seems to have readyled. The majority in the Senate for the full now velocity are sometimed to a party which has always and the seems of the forced for past the first of the seems of the forced financial by the requisite two-therds. Herein the first of the measure—best des shiring at realization by omitting any appropriation for the imminessance of the first of the measure—best des shiring at realization by omitting any appropriation for the imminessance of the first of the measure—best des shiring at realization by omitting any appropriation for the imminessance of the first of the measure—best des shiring at realization by omitting any appropriation for the imminessance of the first of the measure—best des shiring at realization by omitting any appropriation for the first of the measure—best des shiring at realization by the first of the measurement of the force of the first of the measurement of the force of the first of the measurement of the force of the first of the measurement of the force of the first of the force of the force of the first the contribution to the contribution of the co integrated on this treelevant in the content of the terrijer was clear to Congress. Now it must be interested to the Children of General Orders 2 and 44. General from the Children of Childre Actions, the consumers of the consumers Double des Lane of House, per de consecuent fang a fector curve tillage, and Collection of Collectio Union men and Fracedment in Praise, successful and of officers, to affined them protections, Even the most officer to affined them protections. Even the most officer of the presence of trought in mening the control of the presence of trought in mening of the control of the presence of trought in mening of the control of the first set of the fifth of the first set of the fifth of the first set PRESCRIPTS—The following is the Analy Try and been to Table 1 and the second of the second The state of the s \$1.50.

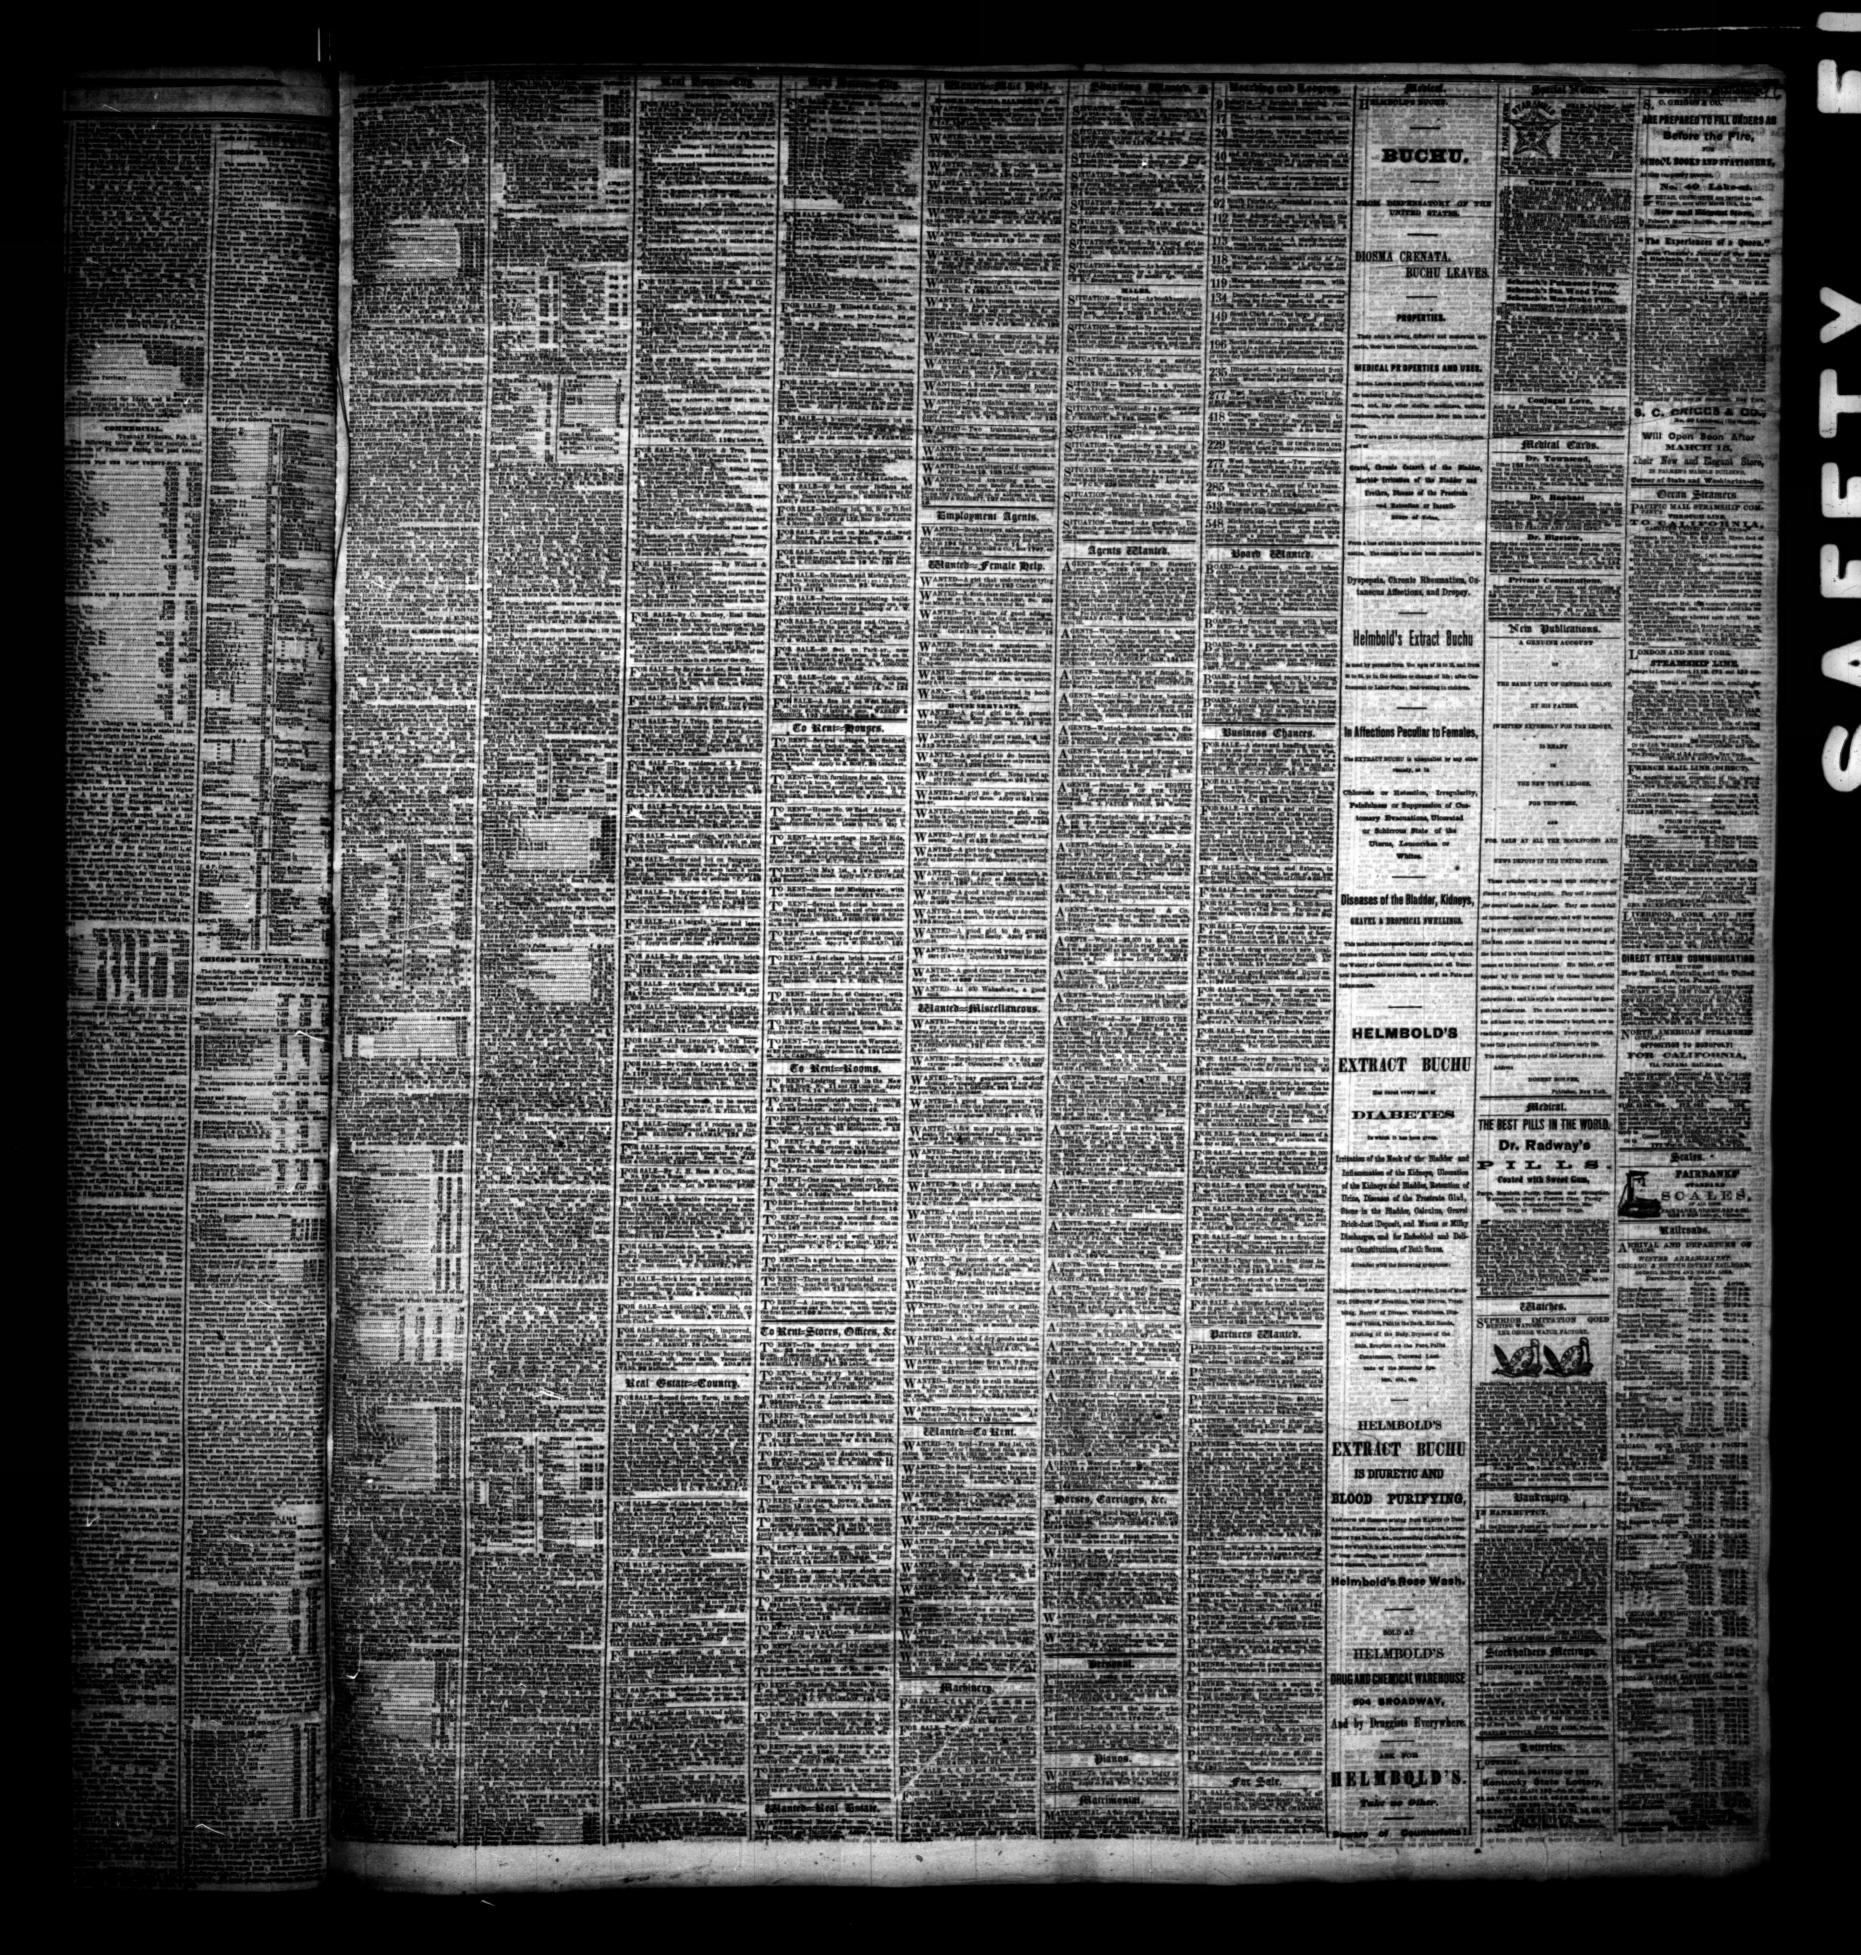

The market for the lending Olls was fairly acfive, and the general feeling was very five. LeviOil was sacted, and Extra Winter was advanced.

50, with a tendency to c. higher range. Carbon,
was in specialtie demand and firmer, owing to foregoing recommendation." Here was the solidies at handquarters urging, as it measure of the first lin portation, that peace and is ourging, it is measure of the first lin portation, that peace and is ourging, the sensured by multilary support of the civil antihority—electrical was in a sympatry with the measure the great was in a sympatry with the measure hos opposed the way and were then ready to give up-all its freits. The one-of-minos of the mailler is seen in the electrical temperature to the flower, as follows:

In assured to a forest resonation, daind forest reports the flower, as follows:

In assured to a forest resonation, daind forest reports the flower, in the results of the resonation, and forest the selection of the mailler is seen in the electrical and serome in the United States in their residency, if well, asked to the transition, and where street had been taken to inform the second of forest the second of the second of the second of the second of the paper of the mailler of the second of the A construction of the form of the control of the co myero-weders." This was a year perfore Congress saw what the situation demanded.

Three months after this order was promate the control of the promate the Cottl Hights bill, embedying this more than an elaboration of the last situation, became a law. Bid the rebels respect it? Not they, though as they were obtinged to. The mischinery of the local courts was directly in their hands or materials control, and Congress had provided no way for its sure endowment. Gament Grand-most the poststem, but the saliker situation control that the fruits of the was identified to be speaked out of the mation's hand; again situation to the strength of the way identify the grant and more also the thing planted by the great and more also the stamp's works to financial Orders 20. 48, of date July 5, 1800. Chief John Committee of Committ desired. Or the test his forms are there or many and the proposition of a committee or conditions, but it is not true that the delegation of the proposition of the proposition of the delegation of the delegatio
